14081 (unmixed) / 1536 / 15617

Queery X (mixed gardens)

Registers 2334 (778+1556) relate to 1890-91 and should be taken with 14081 the figure (Chinegardens) for 1890-91 — Why are they taken with 14152 which is probably the figure (Chinegardens) for 1891-92?

Submitted.

As the figures 2334 relate to 1890-91 as well as 1891-92 (2535 acres respectively being entered in the Registrar's accounts of 1890-91 & the figures viz 14152, relating to the latest year 1891-92 were taken for, comparison as stated in the footnote marked in blue pencil. It directed the figures for 91-92 will be 2332 (777 + 1554). With a Diff: of 201 acres as 1575 15/5.

* This is the figure now included against 301-4-- Siruru in the accounts of 890-
(x) In the accounts for 890-9 an area of 208 acres 4 guntas had been shewn against this taluk; but it is now reported that that area is incorrect the correct measurement being 107 acres 2 guntas.
* The difference of 20 acres appearing between this & the accounts of 890-91 is due to the exclusion given against Hiriyur & Sirah taluks.

GOVERNMENT OF MYSORE.

GENERAL.

PROCEEDINGS.

Dated Mysore, 27th October 1892.

Camp No. 102—9.

Directing the Deputy Commissioners to pay more attention in future in the preparation of Supari accounts and requesting them to submit explanation on the discrepancies pointed out in the accounts received with the Revenue Administration Reports of their respective Districts for 1891-92, before the end of November next.

Government Branch Press, Mysore.—29-10-92.—50.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 27 October 1892.

CAMP NO. 102—9, DATED MYSORE, 27TH OCTOBER 1892.

ORDER.—In the accounts received with the Revenue Administration Reports for 1891-92, the area and assessment of Supari gardens, and the amount of duty collected on supari during the year are given as shown below :—

District.	Area.	Assessment.	Amount of duty collected.
	Acres.	Rs.	Rs.
Bangalore	212	1,532	230
Kolar	78	706	36
Tumkur	207	1,820	58,754
Mysore	84	385	3,118
Hassan	239	1,281	4,254
Shimoga	14,081	2,04,217	2,13,137
Kadur	7,602	1,04,468	88,315
Chitaldroog	57	275	7,915
Total.....	22,560	3,14,684	3,75,759

2. There is apparently some error in the areas given, as it is impossible that an area of 239 acres in Hassan could have yielded duty of only Rs. 4,254, while a smaller area in Tumkur yielded as much as Rs. 58,754. Again 84 acres in Mysore yielded a duty of Rs. 3,118, while nearly the same area in Kolar yielded only Rs. 36. Probably the areas given do not include supari trees in coconut gardens, or, there has been much smuggling in some Districts. The Deputy Commissioners are requested to explain the matter, and if, as the Government presume, the areas given represent the area of only pure supari gardens, and not also the area of other gardens in which supari trees are grown along with other trees, to submit a statment showing the areas of such mixed gardens, and the estimated extent in them occuied by the supari trees. They should also explain how these mixed gardens have been assessed and how the rates charged on them compare with those charged on pure supari gardens.

3. The Government are sorry to find such misleading statements without any explanation, and they trust that the Deputy Commissioners will, in future, pay more attention to the statements sent by them.

4. The reply to these Proceedings should be sent before the end of November.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.

Exd.—M.V.N.

P. T. O.

Proceedings of the Government His Highness the Maharaja of Mysore, (General),—dated 27th October 1892.

Statement showing the extent and assessment of Arecanut gardens in the Mysore Province as per Nagadiyat returns for the year 1890–1.

Districts.	Pure arecanut gardens		Gardens in which both Areca & Cocoanut trees are planted.		Duty on Supari.
	Extent (acres.	Assessment.	Extent (acres.)	Assessment.	
Bangalore	2	1,532	6,636	29,357	230
